

GBH 2-22 - Buying Arguments, reason Why

New Bosch patented impact technology for excellent drilling performance by optimised power transmission from the motor to the drill bit

620 W motor for high overload capability

30 % higher drilling speed than predecessor!

Bosch patented rotating brush plate

Improved SDS tool-holder for longer lifetime (extra long SDS teeth)

Preliminary picture

Softgrip for vibration dampening and secure grip

Variable speed control switch with long trigger, lock-on button

User-friendly mode switch
- drilling w/o impact
- hammering function
